

## KANEHSATAKE COMPREHENSIVE COMMUNITY PLANNING JOURNEY

Kanehsatake what is our Legacy. Evening & Full Day Event!

Workshop with Wanda Gabriel & Pamela Gabriel-Ferland

Our reality has been shaped by many factors one of those is the need to protect our land. We took on a major fight to stop further stealing of our land in 1990. This fight has had deep implications on the social fabric of our community. The war we took on in 1990 was traumatic for many. The various incidents of violence in these past decades have also left scars of trauma... one of the trauma impacts is being in a state of chaos... We are at a crossroad as a community. Do we want change? The paradox of change is that you cannot change what you do not see or accept. We must dig into our moral courage and have a real assessment of our truth as a community. We need to have a series of collective self reflections of our community and dialogue with each other.

This workshop will examine the following.

Where are we right now?

How did we get here?

Where do we want to go?

How do we get there?

2023/04/03

Upcoming  
Workshop  
Kanehsatake  
What is our  
Legacy?
