**August 5, 2025**

**To the Community of Kanehsatà:ke,**

We hope this message finds you well.

As managerial staff within the Mohawk Council of Kanehsatake (MCK), we would like to confirm that our departments remain in operation and are continuing to serve the needs of the community to the best of our abilities.

We recognize that the recent cancellation of the recent elections set to take place August 2, 2025 has created uncertainty and raised understandable concerns. At this time, we are awaiting official direction from Indigenous Services Canada (ISC) regarding the next steps in this process.

While we wait for further guidance, we want to reassure the community that we remain dedicated to maintaining essential services and supporting programs without interruption. We are doing everything we can to provide stability and continuity during this transitional period. We kindly ask for the community's patience, respect, and support as we navigate this situation together.

Additionally, we respectfully ask that community members allow employees to carry out their daily work without disruption, and to please refrain from coming to the MCK offices unless you have a scheduled appointment.

Nia:wen for your continued understanding,

Sincerely,

Managerial Staff
